

CircuitWorks® Conductive Epox

CircuitWorks® Conductive Epoxy is a two part, silver epoxy used in prototype, repair and general conductive bonding applications. It features strong mechanical bonds, excellent electrical conductivity, and quick room temperature curing. CircuitWorks® Conductive Epoxy bonds aggressively to a wide variety of materials.

Features and Benefits

- Conductive silver epoxy provides excellent electrical conductivity
- High strength conductive bond
- Mixed material provides five minute work time, fast cure
- Repairs defective traces and creates jumpers on boards
- Quick solderless electronic connections

Applications

- Repairs traces and temperature sensitive circuits
- Makes high-strength solderless conductive connections

Additional Information

Shelf Life	9 months
Shipping Name	Adhesives N.O.I

Packaging and Availability

Part #	Size
CW2400	Adhesive 7 g (0.25 oz.) syringe, Hardener 7 g (0.25 oz.) syringe, in blister pack
