OMTM-S25-C0

- Fixed bundle separation provides 1 inch offset from mounting surface; the separation between adjacent cables helps to avoid abrasion or interference, ensuring reliable cable performance
- Dovetail connection allows multiple mounts to be attached together to facilitate fast installation; permits expanded routing capabilities
- Engineered for center screw installation with one 1/4" (M6) screw; when configured with the other mounts using dovetail, it will allow installation with fewer screws for improved productivity
