Fax: +49 5231 14-292083  
www.weidmueller.com

The comprehensive range of bolt-type screw terminals offers secure connections for all power transmission applications.

Connections from 10 mm<sup>2</sup> to 300 mm<sup>2</sup> are possible. The conductors are attached to the terminals using crimped cable lugs and each connection secured by tightening the hexagonal nut.

Bolt-type screw terminals with threads from M5 to M16 can be used depending on the conductor cross-section. A low voltage drop and the use of a self-extinguishing material with a V-0 (UL 94) flammability rating guarantee maximum safety.

All bolt-type screw terminals have been tested according to international railway standards (EN 50343, EN 50155, NF F61-017, NF16-101; Ria 20) and comply with the requirements of those standards.
